

# New Life CHRISTIAN ACADEMY

## MISSION STATEMENT

New Life Christian Academy's mission is to support believing families in the discipling of their children through a Christ-centered education.

NLCA will accomplish this by helping students learn God's ways, apply Biblical truths, and develop a personal relationship with Jesus through the Holy Spirit.

## NLCA VISION

Our God given vision consists of supplying the solid foundation of Christ to children from kindergarten all the way through twelfth grade.

The incoming third graders will have opportunity to graduate high school from NLCA, all the while learning and applying God's truths in the community around them.

### Vision Key Points:

- ★ A combination of current church location, faith partners in the community, and construction of stand alone school building are all parts of how K-12 will be accomplished within 10 years or less.
- ★ While children may have their entire childhood schooling at NLCA, our aim is to not shelter children but to teach practical Christianity that can be used whenever they are in public.
- ★ Annual budget has "growth fund" aimed at allowing NLCA to grow and not rely solely on donations.
- ★ 2025: The current 3rd grade class becomes first class of NLCA middle school.  
2026: Construction begins on stand-alone elementary school to increase outreach in the community.
- ★ However, the possibility of large donations and school choice bill that has recently passed the Kansas House of Representatives will accelerate the NLCA growth plan: <https://www.foxnews.com/politics/kansas-school-bill-clears-major-hurdle>
